TO BE TRIED FOR MURDER.

A VERY INTERESTING CASE.

Correspondence of the Richmond Dispatch.)

PRIERBURG, April 21, 1885.

In September of last year Edward Johnson (white), a citizen of Maryland, employed as a laborer on the Atlantic and Danville railroad, had a quarrel with William Urquhart (a negro) at Waverly, which resulted in an altercation and the subsequent killing of Urquhart. The negro first assaulted Johnson, inflicting several injuries. A day or two fleting several injuries. A day or two
afterwards Johnson came across Urquhart in Waverly and shot and killed
him. The case, which has caused much interest, when called in the County Court, after indictment by the gran Court, after indictment by the grand jury, was by election of the accused removed to the Circuit Court of Sussex county. It will be called for trial on the 30th of this month. Among the counsel retained for the defence is Major Douglass, of Watertown. Md., who is highly regarded as an able and eloquent advocate. Judge Weisiger will preside at the trial.

At the last term of the County Court of Sussex a negro charged with theft from one of his race in that county was tried before a jury composed of eight negroes and four whites. The latter were inclined to be lenient, but the negroes insisted upon a verdict of ten years in the penitentiary, and such was

The Circuit Court of Greensville county begins its spring term on Thursday of this week, with the heaviest docket known in ten years. On the civil docket there are said to be about 175 cases, some of them involving points of much interest. The criminal decket also embraces several cases of interest, the principal of which is that of Henry Moore (colored), charged with 

THE EASTERN SHORE.

The Crops-Question of Removing the County-Sent, &c. -

[Correspondence of the Richmond Dispatch. ONANCOCK, April 20, 1885.

The weather has been so cool over here that everything is far behind. Farmers say that they have never seen such a late spring or so little progress made in farming operations for the time of the year. The grass in the yards is most as dead as in mid-winter, and deciduous trees have hardly begun to bud. Irish potatoes and peas, though planted some weeks ago, have not yet come up, and it is feared that they have been so damaged by the long cold weather as to make a full crop impossible. When it is recollected that possible. When it is recollected that the value of these crops depends very largely on their early delivery in market, it will appear how serious a matter this is to the farmers of this section, the staple products of which are potatoes and early vegetables. The sweet-potato beds destroyed by the cold have been generally replenished with seed obtained from northern markets, but no plants have yet been set

With a good season from this time en our people will make a faircrop, but it is next to impossible for them to make up for the heavy shortage resulting from last year's unexampled drought. The approaching spring election is

beginning to excite considerable interest here, owing mainly to the fact that the people will then be permitted to vote on the question of changing the location of the county-seat from Drumndtown to a more central point on the line of the recently-completed New York, Philadelphia and Norfolk railest forensie Wise, Thomas H. Bayly, Abel P. Up- terday and concluded to-day. from the railroad and seven or eight people think it ought to stand on the railroad and near the centre of the fought two miles below Lynchburg on county. The contest promises to be a heated one, and not a few are of the opinion that the advocates for a change of location will be successful. There are good reasons, however, for believthat the county-seat will be allowed to remain where it has always been.

As yet little or no interest is manifested in the minor local offices to be filled in May, and the party will decide next Monday whether nominations are to be made or whether candidates are to allowed to engage in a free fight. The latter course will probably

adopted.
The new railroad down the Eastern Shore is rapidly increasing its freight and passenger traffic. More than fif-teen hundred passengers went over the line during four days of last week, and the shipments of freight over the road have increased beyond the most sanguine expectations of the projectors of the enterprise. It will require, according to present estimates, three large floats to transport the freight-cars across the bay between Cape Charles

City and Norfolk.

WINCHESTER PRESBYTERY.

Assembly.
[Reported for the Dispatch.] Reported for the Dispatch.]

APRIL 18, 1885.

Winchester Presbytery met in Woodstock April 15th at 7½ o'clock, and was opened with a sermon by Rev. Dr. Hopkins. There were present nineteen ministers and sixteen elders. After the sermon the Presbytery was called to order, and the Rey. Charles Ghiselin elected moderator and Rev. W. D. White and Rev. W. F. T. Pitman clerks. Reports were sent up from thirty-one out of our thirty-six churches. From these reports it appears that only four churches are not regularly supplied with preaching, and even these have occasional services. Nine churches report seasons of greater or less revivalone reporting seventy-two accessions, another thirty, and another fifteen. The total ingathering for the year was 210 added on examination and 89 on certificate. Total number of commu-

nicants in the Presbytery now is 2,831. Very encouraging accounts are given also of the contributions, twenty-one of the churches reporting increase in spite of the hard times. Some \$900 were contributed to missions, home and foreign, over and above the amount col-

The committee appointed for that purpose reported the installation of Rev. Mr. Duckwall as paster of the

Petersburg church. Mr. W. H. Miller, a member of the Gerrardstown church, applied for admission with a view to licensure. The church at Strasburg also pre-sented a call for Rev. W. H. Woods for one fourth of his time. This call was put into the hands of Mr. Woods, and being accepted, order was taken for his installation at Strasburg on the

first Saturday in June.

Rev. A. S. Kline, of the German Reformed Church; Rev. E. S. Ferguson, of the Methodist Church, South, and Rev. J. A. A. Bushong, of the Lu-theran Church, were invited to sit as visiting brethren, and introduced to the

Presbytery.

After the usual vote of thanks to the good people of Woodstock for their hospitality, and to the other denominations of the town for the use of their churches, Presbytery adjourned on Saturday night with prayer and the benediction.

Flames Destroy a Hotel and Church-One Man Buried in the Ruius.

A Lyons (N. Y.) special of the 20th says : A fire broke out in the Exchange Hotel here this morning, completely destroying the building and adjoining stables within an hour. An immediate alarm was given, and all the guests and inmates, with one sad excepmost of them in their night-clothing. Calvin Porter, of Seneca Falls, a travelling agent, appeared at a rear window calling for help, but before any could reach him he disappeared in the building. He was found three hours and having satisfactorily passed them also spread to the adjoining business block, but was checked without doing Rev. F. M. Woods and Colonel T. E. much damage. A strong southerly also spread to the adjoining business much damage. A streng southerly wind carried the flames to the German loss on the church amounted to \$6,000. No insurance on hotel property.

Mr. Crawford says he wants to see the barbers organizing for the purpose of opposing such steps.

Leaving the Amalgamated Associa-

A Wheeling (W. Va.) special says: The practical dissolution of the Amalgamated Association of Iron- and Steel-Workers in this portion of the Ohio Valley was effected Saturday night by the formation of an independent organization, embracing all the nail-plate heaters and rollers in this vicinity. The meeting at which this was accomplished was largely attended by representatives from eight mills located in Wheeling, Benwood, Martin's Ferry, and Bellaire.

This action, as explained by one of the delegates in attendance, means the complete and immediate severance of these men from their connection with the Amalgamated Association, and that organization now only exists here through the small remnant of members made up of steel-plate employees and sheet-mill hands.

This splitting up of the Amalgamated Association into independent unions is undoubtedly recognized as tending to weaken the cause of iron-workers, and the course has only been pursued from imperative necessity. It is probable an effort will be made to organize the separate unions into one compact body, in which each sub-division will have a limited, independent field of action.
